May I ask a  
“*silly*” question...

# **What is ESG and why does it matter to my company?**

**What is  
CSRD/ESRS:  
Do we need  
them?**

**Sustainability**

**Report vs.**

**Sustainability**

**Statement: What's**

**the difference?**

# GRI Reports: What does the future hold?

# **External Assurance: Why does it matter (and scare us)?**

**Sustainability**

**Software: Do we  
really need it?**

# Thank you
